BEDROOM COLLECTION

CYCLOON

B519

Upholstered headboard

Aircell® foam filling for a gentle cushioning.
Recycle fabrics: made of recycled plastic bottles.
A warmer brown exudes a cozy and inviting feel.

Support metal legs

The support metal legs hold and evenly distribute the weight of the bed frame and mattress, efficiently protecting them from sagging and damage.

DIMENSIONS: 90x200cm; 140x200cm; 160x200cm; 180x200cm

CUBE

B518

Upholstered headboard

Aircell® foam filling for a gentle cushioning.
Recycle fabrics: made of recycled plastic bottles.
A mid-tone brown complements any style of room.

Support metal legs

The support metal legs hold and evenly distribute the weight of the bed frame and mattress, efficiently protecting them from sagging and damage.

DIMENSIONS: 90x200cm; 140x200cm; 160x200cm; 180x200cm

RIPPLE

An innovative and eco-friendly choice

Our bed frame fabric uses sustainable yarn sourced from recycled plastic bottles. It is certified by GRS, which means you have an environmentally friendly and versatile option for your living space. The variety of color shades offers more possibilities to make our recyclable interiors more interesting and enriching. You and your partner have complete freedom to choose the bed frame color that perfectly suits your preferences.

DIMENSIONS: 90x200cm; 140x200cm; 160x200cm; 180x200cm

SUSTAINABLE YARNS AND FABRICS

We are pleased to announce that Mily has achieved full GRS certification.

Our new fabrics are made from waste plastic bottles.

We will continue this journey and support the circular economy with our actions, GRS certification is an honour for us and a commitment for our customers, which inspires us to take on even greater challenges.
